

OSHCsa

Position on the Learning Framework for School Age Care

- OSHCsa appreciates the government investment in a framework which supports program and practice
- It demonstrates the Australian commitment to article 31 of UN children's rights – equal in importance to article 28
- We now have a consistent set of outcomes for children aged 0 – 12
- The framework supports and enriches current practices
- A skilled workforce contributes to quality outcomes for children
- Play Spaces are important learning environments
- A framework acknowledges, guides and drives best practice and can be contextualised to meet the needs of the children in each service
- It acknowledges school age care as a valued part of children's and families lives
